EARTH BIN™

MADE IN THE USA

The Earth Bin's collage of close up life in North America poses a pleasing yet subtle message about the sensitive natural balance on our planet.

The painter turtle, bull frog, ripening tomato, wild mushroom, rhododendron, and the beautiful orchid drive home how much life we receive from the earth and how important it is that we all practice good stewardship.

Designed to enhance any establishment we are confident this free standing unit will increase recycling rates while gaining key placements in well traveled locations.

Thank you in advance for your participation and we look forward to a successful program!
